

Bleson Philip

MERN STACK DEVELOPER

Kottayam, Kerala | 8606092692 | bleson.philip.cs@gmail.com | www.linkedin.com/in/blesonphilip | <https://github.com/BlesonPhilip>

PROFILE

Highly motivated and technically proficient Software Developer with a strong foundation in software architecture, programming, and debugging. Seeking to leverage my expertise in Git, MERN, SQL, MongoDB, React.js, Node.js and software engineering to design, develop, troubleshoot, and enhance software programs for applications, tools, and networks.

TRAINING & CERTIFICATION

MERN Stack Specialization – Techmindz, Infopark, Kochi	2025
---------------------------------------------------------------	-------------

EDUCATION

Master of Computer Application	2024
---------------------------------------	-------------

School Of Technology & Applied Science, Pullarikunnu, Kottayam, Kerala

Mahatma Gandhi University

BSc Computer Science	2022
-----------------------------	-------------

College of Applied Science, Mallappally, Pathanamthitta, Kerala

Mahatma Gandhi University

SKILLS

MERN STACK
HTML, CSS, JavaScript
React.js, Node.js
SQL, MongoDB
Python

Teamwork & Collaboration
Problem-Solving
Time Management
Adaptability

PROJECTS

Real-Time Chat Application

Built a full-stack real-time chat platform using the MERN stack with secure JWT authentication and role-based authorization. Enabled instant messaging and live user presence with Socket.io. Managed global state efficiently using Zustand and crafted a fully responsive UI with Tailwind CSS and Daisy UI. Emphasized robust error handling on both client and server sides to ensure a stable and user-friendly experience.

Bazarrio : It is a dynamic e-commerce web application built using the MERN stack (MongoDB, Express.js, React.js, Node.js), showcasing my full-stack development expertise. The platform features secure JWT authentication, role-based access control, and seamless product management with image uploads using Multer and Cloudinary. It includes a fully functional shopping cart system using React Context and localStorage, alongside responsive UI/UX design for a smooth user experience. This project demonstrates my ability to build secure, scalable, and user-friendly web applications from scratch.

Personal Portfolio Website: Created a responsive portfolio using React.js to showcase my skills, projects, and contact information. Deployed the application using Netlify.
